

MODEL : P40A-D

Application	For gases and low viscosity liquids up to 80 °C.
Pressure range	-1 bar upto 600 bar
Accuracy	+/-1.0% as per EN 837-1
Ambient temperature	-25/+65 °C
Process temperature	max. +80 °C
Working pressure	max. 90% of the full scale valve
Protection	IP67 as per IEC529
Elastic element	Phosphor Bronze Bourdon
Connection	Brass
Case	AISI 304 st.st.
Window	Acrylic glass 4 mm. thick.
Dial	Aluminium, white with black markings
Safety option	Blow out vent

Dial size	4 inches
Connection type	Bottom
Connection size	1/2 inches

Special Designed for Re-Calibration
